

Is Real Democracy Only Possible In Countries Where There Are Educated Voters?

Democracy means supremacy of people. There are two types of democracy: direct and indirect democracy. Direct democracy differs from indirect democracy by real ~~participating participation~~ of individuals and its only ~~sample example~~ is seen in Ancient ~~Greek Greece~~. Recently, indirect democracy that means representing community in councils ~~is has been~~ applied in most countries. We cannot claim that indirect democracy is perfect for people but it is the best government that exists in the ~~recent current/present~~ circumstances. Some people ~~thought think~~ that democracy is for only educated voters. It contradicts ~~with~~ the democracy's main principle that accepts all people's equality. Hence, it is not ~~an~~ acceptable thought. (Güzel bir giriş Selen Hanım ancak şöyle bir sıkıntı var. Siz direk indirek demokrasi karşılaştırmasına o kadar değinince sanki konu eğitim değil de o olacakmış gibi görünüyor. Yani ana konuya yoğunlaşın. Detaylara çok giderseniz offtopic olabilir)

Everyone deserves freedom and everyone ~~have has a the~~ right to participate in making decisions that affects them. There are no connections ~~s~~ with thinking and education. Every human has ~~an the~~ ability to think and every human ~~can~~ make right decisions ~~with by (araç olarak düşünce)~~ thinking. Therefore no one wants to live without freedom. Governing systems such as monarchy and aristocracy gives no chance to be free and the people lives ~~s~~ as slaves. If ~~the~~ all individuals have ~~a the~~ right to be free as I said before, every individual ~~have has a the~~ right to ~~be~~ live in a democratic country. (Yukarıda dediğim gibi paragraph cümleler açısından güzel ama eğitim demokrasi tartışmasına yeterince değinmiyor. Offtopic olmuş biraz. Yani mesela ne diyebilirdiniz: İnsanlar eğitimsiz de iyi kararlar verebilir. O yüzden eğitimsiz insanlarda oy kullanıp iyi bir demokrasiye katkı sağlayabilir.)

Education must be provided by governments ~~s~~. ~~In the The~~ countries that ~~are~~ governed ~~ed~~ by democracy have highest education levels ~~and this has~~ led to more conscious ~~community communities~~. The reason ~~of for~~ that highest education level is peaceful and free life that individuals' have in democratic countries. ~~In On~~ the other side, the countries that ~~trait treat~~ their people as a slaves have lower education levels because people do not have facilities to have/~~receive~~ education. Democratic government should provide people with better education facilities because democracy has its roots from people. Hence, every ~~people person~~ should live in ~~a~~ democratic society that provides education facilities to all people.

People that think only countries where there are educated voters should ~~be~~ governed ~~ed~~ with democracy may say that uneducated people ~~have do not have~~ enough information about public affairs but when we say public affairs we mean situations that affect all the public. Therefore, educated and enlightened people are exposed ~~by~~ ~~to~~ public problems less than uneducated people. Hence, uneducated or people that ~~are~~ economically disadvantaged have ~~more~~ knowledge about public affairs and they

have the right to make decisions about public affairs that they are to exposed directly.

In conclusion, democracy is the most suitable government type for everyone. Everyone ~~have~~ has equal rights, equal facilities and equal freedom in democratic societies. Democracy is for everyone because everyone deserves these ~~that~~ mentioned in the sentence before rights. Uneducated and educated people must be equal and only way to make that is democracy.

Genel notlar:

Selen Hanım, dil itibariyle iyi bir yazı. Her paragrafta bazı hatalarınız vardı onları düzelttik.

Ancak bu yazının en temel sorunun biraz offtopic olması. niye eğitimsiz insan demokrasi için gereklidir, eşittir sorusunu yeterince açıklanmamış. Sadece son gelişme paragrafında ona benzer bir şey var.

O açıdan konuya dikkat etmenizi tavsiye ediyorum.

Everyone tekil fiil ile kullanılır, every'den sonra gelen isimler tekil olur.

Treat ile trait başka kelimeler.
